Please note that we have been advised by our Programs area that we are unable to differentiate the various stages of investigation or at what stage of the process, the Foreign National under investigation, is still considered to be under investigation. Further, the same person may be subject to investigation multiple times with each occasion registering as a new investigation. For these queries we can only view the subjects Nationality ie: Mexico / Jamaica / Honduras /Guatemala.

All reporting clients will almost always be subject to a removal order but that does not mean they're under investigation.
